**SUBJECT INDEX BY AGROVOC DESCRIPTORS**

**PREDMETNO KAZALO PO DESKRIPTORJIH AGROVOC**

- |  |  |
|--|--|
| aesthetic value 369-387                          | design 369-387                           |
| agricultural censuses 297-311                    | developmental stages 233-242             |
| agricultural economics 205-220, 221-232          | disease resistance 233-242               |
| agricultural population 389-409                  | disease transmission 287-295             |
| agricultural structure 357-367                   | economics 243-251, 253-263               |
| analytical methods 313-324, 341-348              | enterprises 297-311                      |
| aromatic compounds 233-242, 287-295,<br>349-355  | environmental factors 357-367            |
| ash content 325-334                              | experimentation 313-324                  |
| avena 349-355                                    | fagopyrum esculentum 349-355             |
| behaviour 205-220, 221-232, 369-387              | fagopyrum tataricum 349-355              |
| biological properties 233-242                    | farm size 297-311, 389-409               |
| botanical gardens 277-286                        | farm structure 297-311, 357-367, 389-409 |
| buckwheat 349-355                                | farmers 389-409                          |
| cereal crops 349-355                             | farming systems 297-311                  |
| chemicals 287-295                                | farms 297-311                            |
| chemicophysical properties 265-275               | fertilizer application 313-324           |
| chlorogenic acid 233-242                         | fibres 349-355                           |
| climate 357-367                                  | field size 357-367                       |
| climatic factors 243-251, 253-263, 357-<br>367   | flavonoids 349-355                       |
| consumer behaviour 265-275                       | flavour 341-348                          |
| crop yield 243-251, 253-263, 265-275,<br>341-348 | fruits 341-348                           |
| cultural values 369-387                          | grain crops 349-355                      |
|  | grapes 243-251, 253-263, 287-295         |
|  | grapevines 357-367                       |
|  | growth period 233-242                    |

### SUBJECT INDEX BY AGRIS CATEGORY CODES

#### VSEBINSKO KAZALO PO SKUPINAH ZNANJA (PREDMETNIH KATEGORIJAH)

History..(B50)	277-286
Agricultural economics and policies..(E10)	205-220, 221-232, 297-311
Land economics and policies..(E11)	389-409
Labour and employment..(E12)	205-220, 221-232
Development economics and policies..(E14)	297-311, 389-409
Rural sociology and rural security..(E50)	205-220
Agrarian structure..(E90)	297-311
Crop husbandry (general topics)..(F01)	243-251, 253-263, 265-275, 341-348
Cropping patterns and systems..(F08)	357-367
Plant physiology and biochemistry..(F60)	243-251, 253-263, 287-295, 325-334, 335-339, 341-348, 349-355
Plant taxonomy and geography..(F70)	277-286
Plant diseases..(H20)	233-242, 287-295
Nature conservation and land resources..(P01)	277-286, 369-387, 389-409
Soil chemistry and physics..(P33)	313-324
Meteorology and climatology..(P40)	357-367
Food composition..(Q04)	243-251, 253-263, 265-275, 287-295, 325-334, 341-348, 349-355
Diet and diet related diseases..(S30)	349-355
Mathematical and statistical methods..(U10)	221-232, 325-334
